

Study Plan – Beginner

- 1 – I recommend that you study one class a week so that in 20 weeks (about 4 and a half months) you will have successfully completed this module. If you need to study for more than a week to complete the class, do so as this module is very important for building the foundation of your guitar skills.
- 2 - After finishing the fundamentals module, I recommend studying the Neo Soul Fusion 1 and 2 modules so that you will acquire specific and characteristic knowledge of this guitar style. In this part of the course try to listen to the recommended artists as this will help your understanding of the subject.
- 3 - To finish and deepen your studies, study the module called Extra Classes. In this module you will deepen in improvisation, chord melody and technique applied to jazz fusion.
- 4 - After going through this learning path, feel free to study the weekly classes that are recorded live where you can ask questions and interact with the teacher and other students. Every week a topic will be addressed that will be relevant to your musical development.

Study Plan – Intermediate

1 - My first recommendation is that you study the fundamentals module in order to review the subjects that are fundamental for the development of any guitarist. Maybe you're having trouble evolving on the guitar because you didn't study this subject the right way.

2 - After finishing the fundamentals module, I recommend studying the Neo Soul Fusion 1 and 2 modules so that you will acquire specific and characteristic knowledge of this guitar style. In this part of the course try to listen to the recommended artists as this will help your understanding of the subject.

3 - To finish and deepen your studies, study the module called Extra Classes. In this module you will deepen in improvisation, chord melody and technique applied to Jazz Fusion.

4 - After going through this learning path, feel free to study the weekly classes that are recorded live where you can ask questions and interact with the teacher and other students. Every week a topic will be addressed that will be relevant to your musical development.

Study Plan – Advanced

1 - My first recommendation is that you study the Neo Soul Fusion 1 and 2 guitar models where you learn the most important elements and techniques of this style.

2 - Then study the module of extra classes where you will evolve in Chord Melody, Improvisation and technique techniques. This module will be very important for those of you who want to improvise using the most used scales in Jazz and Blues.

3 - After going through this learning path, feel free to study the weekly classes that are recorded live where you can ask questions and interact with the teacher and other students. Every week a topic will be addressed that will be relevant to your musical development.
